

## FRUMOSUL!!! (în toate sensurile)

“**Beautiful** (in every senses) this word describes the show of this six emigranti dall’Italia. Among skills, music, dance, the actors have created laughter and clapping among the audience. The show is multilingual - they sing in French, Spanish, Yiddish, Italian and Portugese but this does not prevent the comprehension of the message: LIFE! (joy, happiness, vitality)”

Web magazine of Festivalul International De Teatru De Le Sibiu – may 2006

“The six characters [...] dance and sing with different musical instruments - accordion, drum, guitar and castanets. They create a magical atmosphere linked to a unique element: the homesickness. Moments of the traditions of various populations as the french, german, yiddish and italian emerge. The message of the group Faber Teater is undoubtely global, multilingual, in search of european unity. The young actors and musicians have succeeded in creating an atmosphere full of originality that has never left the tone, always enthralling the audience. All has been concluded with a common picture that has been printed in our heart.”
